Department/Program Chairs are permitted to make exceptions, but these are the guidelines.

<sup>1</sup>For some interdisciplinary minors requiring more than five credits, a limited amount of overlap is permitted between minor requirements and major requirements of certain major programs. Consult the Registrar's Office for details.

<sup>2</sup>The Global Citizenship, Justice, and Diversity (GCJD) distribution requirement permits double counting with another distribution area. A single credit can apply to two different distribution requirements if one of those requirements is GCJD.
